PROFESSIONAL SUMMARY

Business analyst combining requirement gathering, stakeholder communication, and KPI reporting with SQL, Power BI, Tableau, and Excel skills, holding an Advanced Certification in Data Analytics from IIT Roorkee, in association with Intellipaat. Built 18+ analytics projects (7 featured below) across marketing, SaaS, finance, operations, and manufacturing, including a 3.20x-ROAS funnel analysis, a 60% six-month retention study, an Excel budget-vs-actual model, and a \$2.3M Power BI dashboard.

CORE SKILLS

- **Business Analysis:** Requirement Gathering, Stakeholder Communication, Cross-Functional Collaboration, KPI Reporting, Root Cause Analysis
- **BI & Visualization:** Power BI (DAX, Data Modelling), Tableau, KPI Dashboard Design, Data Storytelling, Google Analytics, Streamlit
- **Analysis & Querying:** SQL (T-SQL, PostgreSQL, MySQL), Advanced Excel (Pivot Tables, SUMIFS, XLOOKUP), Python (Pandas, NumPy, Matplotlib), R
- **Data Preparation:** Data Cleaning & Wrangling, EDA, CTEs, Window Functions, Stored Procedures
- **AI-Augmented Analytics:** Using AI tools for Excel formula building, SQL query writing, Python scripting, and dashboard/visualization design
- **Statistics & ML (supporting):** A/B Testing, Hypothesis Testing, Gradient Boosting, Logistic Regression, RFM Segmentation, Time Series Forecasting

EXPERIENCE | [Internship certificates \(Google Drive\)](#)

Finance & Marketing Analytics Intern | [Ads Klick Media](#) May 2023 - Jul 2023

- Gathered reporting requirements from finance and marketing stakeholders and created automated pivot-table KPI dashboards and reusable templates, eliminating repetitive manual reporting.
- Collaborated cross-functionally to surface channel-level performance insights via Google Analytics and Excel that drove +20% reach and +25% engagement, informing weekly budget decisions.

Data Analytics Job Simulations | Forage (Tata iQ, Deloitte Australia, Quantum) Sep 2025 - May 2026

- Completed three independent simulations: GenAI-assisted risk analysis and collections strategy (Tata iQ), Tableau/Excel forensic data analysis (Deloitte), and commercial trial-store analytics (Quantum).
- Applied EDA, dashboarding, and stakeholder-ready reporting across financial services, forensic technology, and retail commercial contexts.

SELECTED PROJECTS (7 FEATURED, 18+ TOTAL, 2024 - PRESENT)

[Marketing Funnel & Campaign ROI Analysis](#) - SQL, Power BI, Excel

- Analysed a multi-channel marketing funnel (Impressions to Customers) across 30 campaigns, achieving 3.20x ROAS and 220.4% ROI, and modelled a 15% budget-reallocation scenario projecting a 4.00x ROAS uplift. (SQL, Power BI, Excel)

[Customer Cohort & Retention Analysis](#) - SQL, Power BI

- Built cohort retention curves for SaaS subscribers, measuring 60% six-month retention and identifying Partner as the top acquisition channel (67.8% M6 retention) to guide onboarding and acquisition strategy. (SQL, Power BI, DAX)

[Superstore Sales Performance Dashboard](#) - Power BI, DAX

- Built a Power BI dashboard with \$2.3M in sales, 12.48% profit margin, and 5,000+ orders across 793 customers, flagging Technology and West as top growth levers. (Power BI, DAX, Excel)

[Budget vs Actual Financial Planning Model](#) - Excel FP&A

- Built an Excel FP&A model with dynamic SUMIFS/XLOOKUP formulas for monthly and YTD variance analysis across Base, Upside, and Downside financial scenarios. (Excel, Scenario Modelling)

[Operations & Supply Chain Performance Analytics](#) - SQL, Power BI, Excel

- Analysed 4,000 orders end-to-end (58.2% on-time delivery, 93.6% fulfilment, 11.0% stockout rate) to flag supplier bottlenecks and regional delivery risk for management review. (SQL, Power BI, Excel)

[Manufacturing Downtime Intelligence Dashboard](#) - Tableau Public

- Built a Tableau dashboard tracking 1,030 downtime incidents across 4 factories, achieving a 91.4% asset reliability score and identifying laser welding/cutting equipment as ~90% of root-cause failures, driving predictive-maintenance recommendations. (Tableau, Data Visualization)

[SaaS Customer Churn Analytics Platform](#) - ML, Dashboard

- Predicted churn across 2,500+ records at 94.2% AUC-ROC and 90.8% F1-Score using Gradient Boosting on a SQL cohort layer (CTEs, window functions, SMOTE), with a Chart.js risk dashboard. (Python, SQL)

Additional: [Chinook Revenue Intelligence & Data Engineering](#), [A/B Testing Website Conversion Framework](#), [Retail Monthly Sales Forecasting Engine](#), [Retail RFM Customer Segmentation App](#), [HR Workforce & Attrition Analytics](#), [Messy Data Cleaning & Data Quality Case Study](#), [Formula 1 Race Predictor](#), [FIFA World Cup Match Predictor](#), [Netflix Movie Recommendation System](#), [Quantum Retail Analytics](#), [Bank Marketing Prediction](#)

CERTIFICATIONS | [View all certificates \(Google Drive\)](#)

- Advanced Certification in Data Analytics, IIT Roorkee (iHUB DivyaSampark) x Intellipaat (Aug 2026) - ID: IPTIH26080309; SQL, Python & Power BI Certifications, same program (2026)
- Google Data Analytics Professional Certificate, Coursera (Aug 2024 - Jul 2025); Microsoft Excel, Word & PowerPoint Certifications (2024)

EDUCATION

Bachelor of Commerce (Honours) | Amity University, Noida

2021 - 2024

Google Data Analytics Professional Certificate | Coursera

Aug 2024 - Jul 2025

Data Analytics Certification Program | Intellipaat, in association with IIT Roorkee

Jul 2025 - Aug 2026
